- Screen on App Launch

Registration Screen (SIGNUP)

- User Registers using a user ID / Email Address
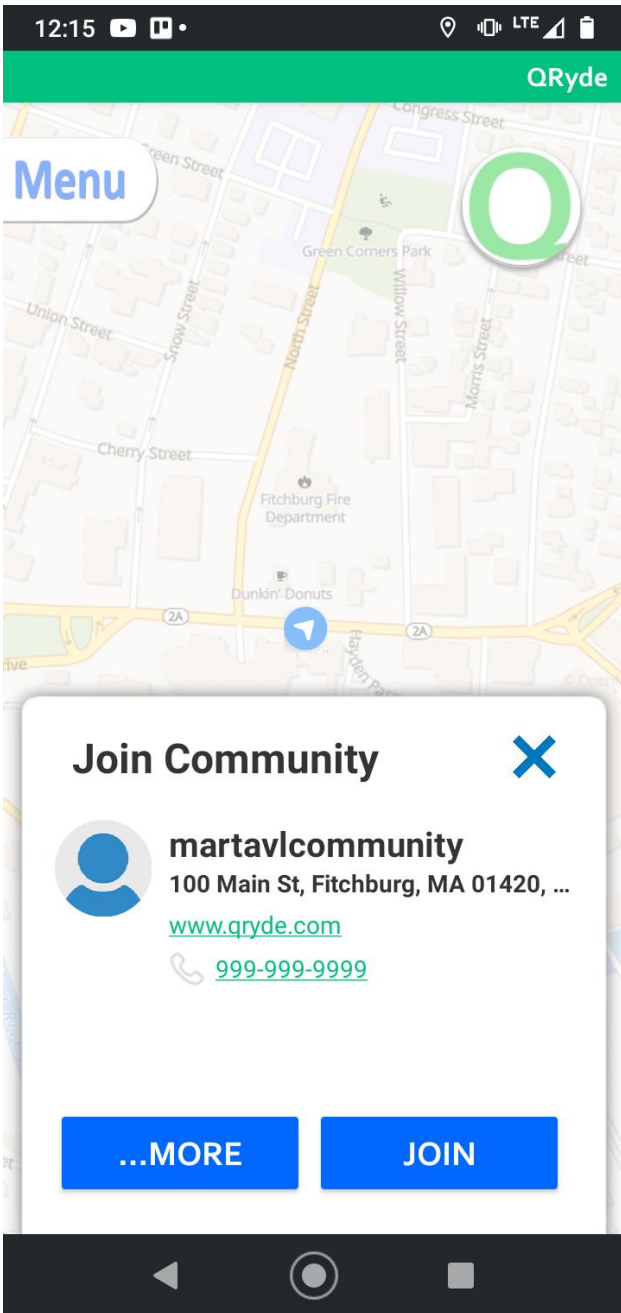

- Based on user's current location, the popup will show the user's community. If the consumer is in SGRC region, it will ask the user to join the SGRC community.

- The consumer can be part of multiple communities
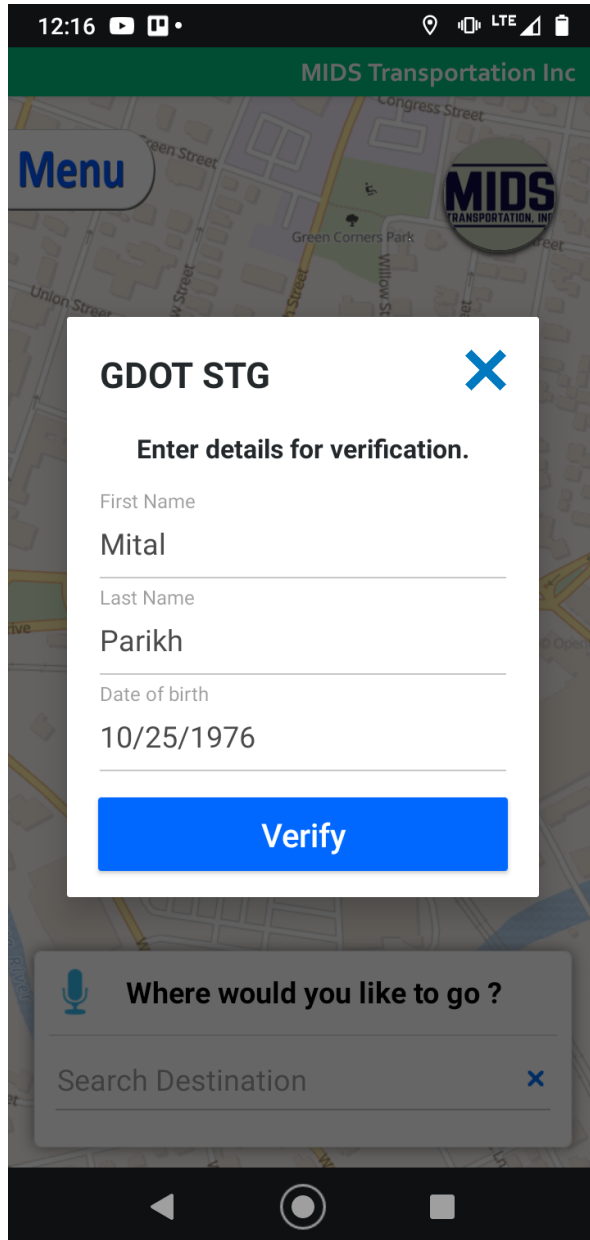

- Once the user joins the MIDS (to be replaced by SGRC community)
- System verification for existing user.

- If user does not exist, user will be forced to enter the home address
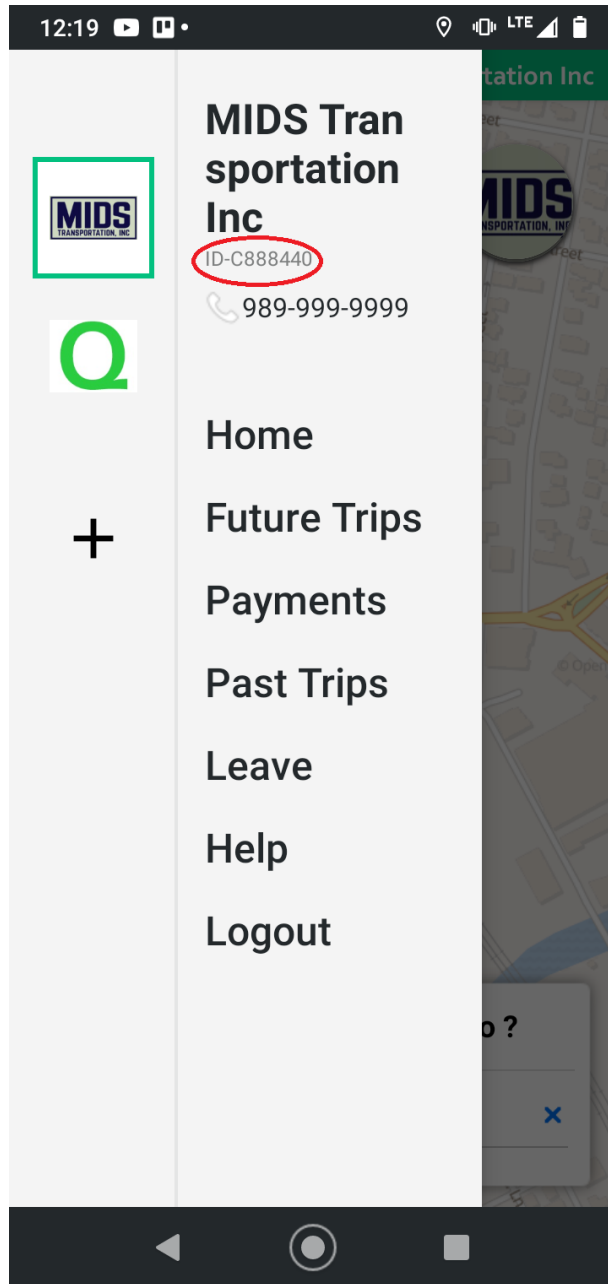

- General public user is registered in the system and will have a Client ID
